Dear Beets -

I'm really sorry about Minnie. You'll just
have to find someone else for me to lie on the floor
with!

I'm not surprised Fisch got fishy about that
truly useful symposium etc we were doing. It was
getting cleaner & cleaner that we as a group felt
the directing students were being badly advised
by faculty. Of course, finances can always be
used... etc.

I'm game for whatever you can fashion
about having me at again this year, in some
manner. That idea about the brains is a
good one - how, honey (!) will I still have parts
of mine.

Your brother was nice enough to call while
I was in Cincinnati.

Love to you both.

Edward
