

Official support? Go for it! Use your wiles to get in these  
offices! The work you do is too good to get the "go-by"  
or "go-bye."

Shall we keep our fingers crossed - hope that  
Pender does it again? Hope that Dale's schizophrenia  
gets her better of him? Hope Budman is a mean  
and destruction as he seems? Hope that Clinton  
does anything right? Oh shall we just either bomb  
Washington and/or more to ... where!?

My love to you both. A Delicate Balance is  
shaping up to be a fine production. It amazing -  
in how to change nothing - after 30 years.

Take care,

Edward
