Dear Beels:

Well.... fuck 'em! (The theatre faculty, that is.)

Did you have intimations that they would not come through for the Russians? Perhaps you should register a formal complaint with high powers & really isolate yourself. *

I've had a sense over the years of the same presentation weekend that you were the only faculty in view, the only person running the whole thing. Do the rest of them resent that? Is it a one man effort?

It would be nice if Ularivostok worked out, especially if you were there. Keep me posted.

Sorry to hear you're not your Chilean friend.

Love to you both.

Edward.

P.S. Does the uncaring U. send airfare reimbursement checks within the year of submission?

* Isolated enough already by being a caring, involved creative person stuck in the middle of the tenure - & - nothing - more crowd.
